

NOISE MONITORING REPORT

By arrangement with the Department of Environment, noise is monitored by Kalgoorlie Consolidated Gold Mines (KCGM) at the Kalgoorlie Technical School (KTS: corner of Davidson and Wilson Streets) and Boulder Primary School (BPS: corner of Moran and Brookman Streets).

To establish the contribution of mining noise at these sites a trigger recording mechanism is used. Between 7pm and 7am, an event is recorded when the noise exceeds a set level for more than two minutes. A maximum of 49 events can be recorded on any day between 7pm and 7am.

With around 91 days each quarter, a maximum of 4,460 noise events could be recorded at each site. The following table represents the actual number of noise events recorded at each site during the quarter and the dominant noise identified for each event.

KALGOORLIE-BOULDER NOISE MONITORING RESULTS **FOR 1 JULY TO 30 SEPTEMBER 2005**

SITE	TOTAL	MINING	TRAFFIC	OTHER
BPS	65	23	13	29
KTS	63	14	10	39
TOTAL	128	37	23	68

Please note that the events in the "Other" category were dominated by birds, wind and rain.

KCGM continues to work on reducing the impact of noise from its operations. Investigations are ongoing and improvements made when identified. Further information about our noise management can be found on the KCGM website – www.superpit.com.au.

Please contact the KCGM Public Inquiry Line on 9022 1100 if you have any queries or concerns regarding noise from our operation.
